

SOCIETY FOR MILITARY PSYCHOLOGY

Presents this 2019 Presidential Citation to

Keith Cooke

For two decades of providing outstanding service to the Society for Military Psychology in supporting our membership efforts, award processes, and the Presidents of our Society.

Mr. Cooke has done an excellent job with our membership tracking and awards process, both critical components for a thriving organization. He has provided timely notices for the Division call for the awards over many years. He has done a tremendous job of organizing award applications in an efficient manner to ensure that they are complete and on time for the Division 19 Awards Committee review. Following the decision of the Awards committee, Mr. Cooke has been punctual in notifying nominees about the selection outcome of the award. He has been flexible in making adjustments to scheduling for the Division 19 award processes and rescheduling candidates. Each year, the plaques are correctly engraved with requested details of the award winners.

Over his years of service to the Division, Mr. Cooke has worked with a number of Division Presidents and Past Presidents to improve each iteration of the well-attended and improved awards process. During this same period of time, he has helped keep our membership roster up to date by supporting our Listserv process with new members. Through providing frequently updated rosters, Mr. Cooke permits the Society to provide current events and information to our constituents. Past Presidents and other members of the Division are highly complimentary of how Mr. Cooke has facilitated our growth, communication, and service for the Society over these many years.

For his outstanding service to the field of military psychology and to the Society by supporting our membership and award processes, and for providing continuous support to many Presidents of the Society, I, Stephen V. Bowles, take great pleasure in presenting the Society for Military Psychology Presidential Citation to Mr. Keith Cooke.

Stephen V. Bowles, PhD, ABPP
President, Society for Military Psychology
