## ABOUT THE PROGRAM

Are you interested in getting a job in the VA and want to know how to set yourself up for greatest success? Come learn about various career pathway options and get the scoop for how to find jobs (even when not posted on USA Jobs!). By joining this webinar you will learn about what hiring officials are looking for and how to prepare both your application and for interviews. We will also discuss what NOT to do during the process (e.g., what really might turn off someone from considering you) and address common barriers faced in the hiring process.
