

## Navy Clinical Psychology

- Our numbers are increasing – currently about 240 active duty Navy psychologists serving throughout the world
  - Half are assigned to Navy medical facilities In the United States and abroad; growing number assigned to operational units
  - Services include clinical intervention, assessment & selection, training & prevention-oriented services; organizational consultation to commanders
  - Typical career path alternates between traditional MTF and less traditional operational jobs

## Navy Psychology Doctoral Internships

- The Navy has 3 APA-accredited doctoral internships, two of which are in the APPIC match (San Diego and Walter Reed)
- Internships are 12 months long
- Organized around a Practitioner-Scholar model
- Consist of clinical rotations, trans-rotational experiences, didactics, extensive supervision, and operational experiences with both the Navy and Marine Corps
- Interns are active duty Lieutenants
- Service obligation is 3 years post-internship
